

How to find your IP Address Xerox Versalink/Altalink

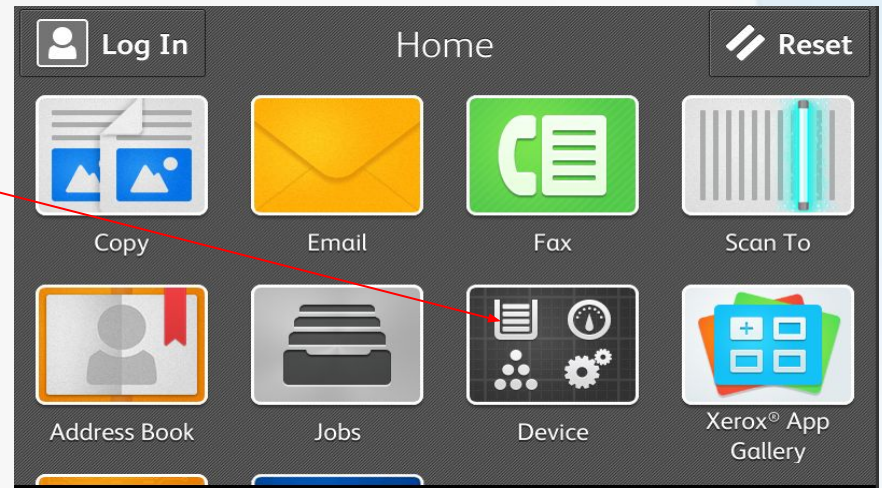

Solutions for document management.

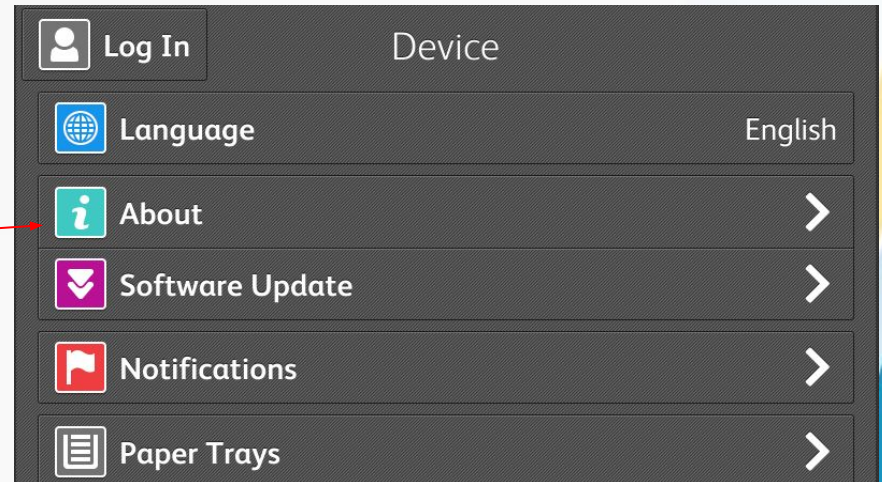

From the Front Panel of the Machine
Choose the **Device** Button.

Device acts as the main settings button for the Versalink/Altalink Models.

Once you are in the Device Section you will see options including one labeled as **About**. This Section will show you general information about the Xerox.

The **About** tab will show information like the Model, Network Device Name, Serial Number, Software Version, Network Address, and Fax Information.

A screenshot of a mobile application interface showing the 'About' screen. The screen has a dark grey background with white text. At the top left is a back arrow icon, and at the top right is the word 'About'. Below this is a section header 'General' in a lighter grey box. The main content consists of several rows of information:

General	
Device Name:	VersaLink B405
Model:	Xerox® VersaLink™ B405DN MFP
Serial Number:	
Xerox Asset Tag:	
Customer Asset Tag:	

Under the **Network Category** you will see the Hostname(Machine name on your network) for the machine, as well as the IP Address.

A screenshot of a mobile application interface showing the 'About' screen, specifically the 'Network' and 'Wi-Fi' sections. The screen has a dark grey background with white text. At the top left is a back arrow icon, and at the top right is the word 'About'. Below this is a section header 'Network' in a lighter grey box. The main content consists of several rows of information:

Network	
Host Name:	XC-60CFCD
IPv4:	10.0.1.34
IPv6:	

Below the Network section is another section header 'Wi-Fi' in a lighter grey box. The main content consists of two rows of information:

Wi-Fi	
Link Quality:	Good
Link Channel:	6

Either Can be used to configure your print driver.

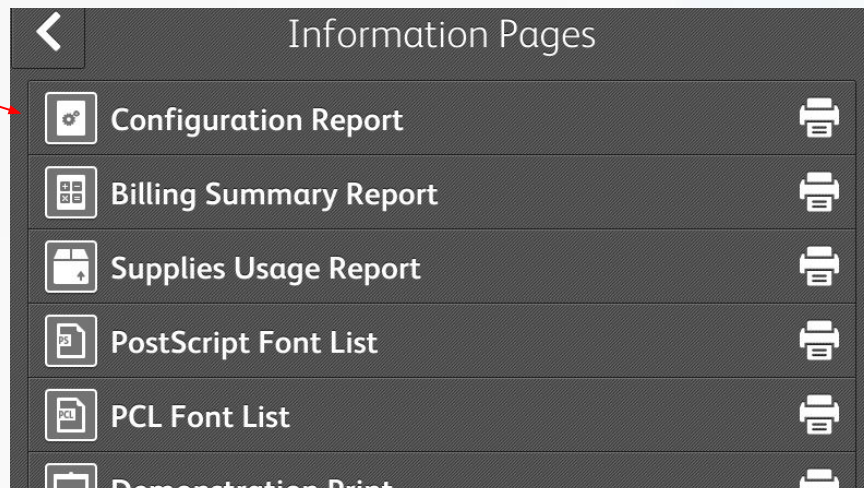

When you run the Xerox Print Driver Wizard, it will add the machine by HostName as default

If you would like to print out the IP Address, Scroll all the way to the bottom to [Information Pages](#).

Information Pages is a list of the Most Important Reports the Machine has available to Print.

To Print the IP Address We will Choose [Configuration Report](#)

Configuration Report has the machines Network Info, Specifications, Fax, Scan, Ports Information.
